---

In a market characterized by increasing competition and constant changes, we have been successful as an independent insurance broker since 1986. Privately held, we deliver innovative, flexible, and comprehensive solutions especially to small and medium enterprises.

Clients rely on our expertise in all aspects pertaining to insurance, finance, and law as well as our knowledge of the industrial sector. We provide independent and professional advice with a “client first” attitude, analyzing our clients’ needs and then identifying suitable solutions in the market – with the right balance of protection and costs.

Our employees receive regular trainings in order to sustain our high standards and to remain at the forefront of the insurance market. Because of our large number of clients, we are able to obtain price and quality conditions far ahead of the common market standard.
