---

Caspar & Co. Labora is a family owned, Aachen based producer of laboratory furniture established here in 1965.

We produce laboratory furniture, including work benches, cabinets, fume cupboards and all specific installations required, as well as providing maintenance and repair services. Each laboratory is designed and produced specifically for the customer's requirements.

Our customers include major pharmaceutical and chemical corporations, many universities and research institutes as well as hospitals and other medical institutions in Germany and beyond.

All laboratories are produced in our own production facility in Aachen, Germany, and shipped and installed by our own, dedicated installation teams.

In addition to laboratory furniture, we also produce doors for operation theatres, and are a distributor for emergency equipment such as safety showers, eye wash installations.

We are passionate about providing the highest level of quality and service to our customers, and are delighted to hear from anyone interested in our products, or services.
