Employees 90
Founded (year) 1991

DASGIP has been an industry-leading supplier of benchtop bioreactor solutions for the biotech, pharmaceutical and chemical industries as well as academia and research institutions since 1991. Our Parallel Bioreactor Systems for the cultivation of microbial, plant, animal and human cells utilize industry-standard benchtop glass and single-use bioreactors. DASGIP's best-in-class configurable control systems and state-of-the-art bioprocess information management software deliver unparalleled functionality coupled with user-friendly design for optimal bioprocessing.

DASGIP was founded in 1991 and is part of the Eppendorf Group since January 2012. Eppendorf is a premium manufacturer of liquid, sample and cell handling products and expert partner in life science laboratories. DASGIP's high quality products complement Eppendorf's bioprocess offerings of New Brunswick bioreactor and fermenter product lines.
