Employees **5.768**

Founded (year) **1956**

Forschungszentrum Jülich pursues cutting-edge interdisciplinary research on the pressing issues of our time. With its competence in materials science and simulation, and its expertise in physics, nanotechnology, and information technology, as well as in the biosciences and brain research, Jülich is developing the basis for the key technologies of tomorrow.

In this way, Forschungszentrum Jülich helps to solve the grand challenges facing society in the fields of energy and the environment as well as information and the brain.

Forschungszentrum Jülich is breaking new ground in the form of strategic partnerships with universities, research institutions, and industry in Germany and abroad.

With more than 5,700 employees, Jülich – a member of the Helmholtz Association – is one of the large interdisciplinary research centres in Europe.
