Founded (year) 1884

As stakeholder for more than 68.000 member companies the Chamber of Industry and Commerce („IHK“) Aachen operates with her advisory boards for a strong economic region besides the federation, the federal states as well the local authorities.

The IHK Aachen supports for a long time the dynamic sector of the public health service in the regions of Düren, Euskirchen, Heinsberg and Aachen. Several offers of information, events and co-operations are targeted to enterprises belonging to this branch. Additionally, we transfer applicable contacts between economy and science within the technology region of Aachen and across.

The IHK Aachen has been the first chamber in Germany with an own department of “Innovation, Environment and Industry”, especially to strengthen the exchange of knowledge in the technology region between enterprises and research institutions.

The IHK Aachen is board member of MedLife e.V.
