---

The International Technology and Service Center Baesweiler (ITS) is situated in the heart of Aachen's Technology Region. Due to the immediate proximity to the Aachen's research and higher education landscape and to the Research Centre Jülich, ITS offers ideal conditions for companies doing business in Biotechnology and Life Science.

The individual and flexible area on offer comprises a total of 6,500 m<sup>2</sup>: 33 manufacturing units (from 42 m<sup>2</sup> upwards) as well as 61 modern office and laboratory units with variable floor plans and a maximum in functionality, adaptable to the individual needs. The laboratory units partly have all the equipment needed. Further reconstruction can easily be realized. As a technology and incubator center, ITS also offers flexible temporary and competitive lease conditions as well as extensive services, especially for start-ups.
