Employees 30

Founded (year) 1993

mecora Medizintechnik stands for the development of high-quality component parts and the production of small and medium batches in the field of medical plastics engineering. We are a reliable and successful partner to transfer an idea into a sterile product. Our experience and the combination of development and production render us flexible, quick and cost-effective.

mecora was founded in 1993 in Aachen. Since then, the company has been working in the field of development and production of plastics engineering components for medical devices. With 30 employees, mecora is a full-service partner from design and construction over tool making, manufacture of plastic components and clean-room assembly up to labeling and individual packaging. Since 1996 mecora has been certified according to DIN EN ISO 13485 as a medical device manufacturer. The extensive documentations and quality assurance measures are audited several times annually.
