<i>Founded (year)</i>	1993

MLM Medical Labs is a CAP- and DIN EN ISO 15189-accredited, GLP-certified and CLIA-registered central and specialty lab that is dedicated exclusively to clinical trials phase I to IV. MLM was founded in 1993. With a staff of 30 employees we assist in 70-80 clinical studies simultaneously.

MLM offers the entire portfolio of service elements necessary to laboratory support clinical trials:

- Development and validation of special analytical methods
- Global supply of study-specific sampling kits
- World-wide sample logistics
- Clinical chemistry, hematology, serology and urinalysis
- Biomarker assays including multiplex panels
- Long term storage of samples at -30°C and -80°C
- Web Access - mlm online®

MLM's clients are renowned CROs, biotech and global pharmaceutical companies as well as universities based in Europe, Asia and USA. MLM's services are offered 365 days a year.

We create a reliable partnership with our clients and our core values are:

- Scientific Excellence
- Customized Solutions
- Personal Accountability
