Founded (year) 1996

OSTHUS is a global leading vendor agnostic consulting and software company specializing in Digital Lab Informatics. It was founded in 1996, is headquartered in Germany and operates from multiple sites in Europe, US and Asia. With the core values integrity, customer orientation and authenticity OSTHUS builds strong trust and long term relationships with its customers. By translating scientific needs into innovative IT solutions OSTHUS bridges science and IT.

OSTHUS enables interoperability, exchangeability, and process harmonization supporting seamless innovation in customer companies. With a culture of continuous improvement OSTHUS delivers high quality results based on the latest technologies & industry standards.

Through open collaboration with customers, partners & peers OSTHUS maintains an active network assuring your solutions are always at the cutting edge. As the Allotrope Framework architect, OSTHUS is part of a unique collaboration of analytical chemistry and computer software professionals working on the strategic development of long term sustainable lab environments.
