---

As PFIF – Partner für Innovation & Förderung (partners for innovation and funding) – we are one of Germany's leading consulting agencies specialized on the field of public funding. We support companies in financing their R&D projects on new products or processes by subsidies. The focus of our services lies on the selection of the suitable funding program and the successful application as well as on relieving the companies in the bureaucratic project management: Based on extensive expert knowledge of all major funding programs, we ensure the optimization of the funding and the proper and audit-proof execution. By this, our clients are able to focus on the development of their new products or processes to increase their competitiveness and strengthen Germany as an industrial location.

PFIF operates performance-based and supports companies of any sizes in Life Science and any other industries.
