<i>Employees</i>	15
<i>Founded (year)</i>	1988

Founded in 1988 with a focus on investments in SMEs, the S-UBG Group has expanded its investment activities to venture capital deals by establishing the S-VC GmbH and the two Seed Funds Aachen I & II. With these four investment vehicles, the experienced team of the S-UBG Group has currently roughly € 80 mio. invested capital under management in about 40 companies.

The S-VC GmbH is the venture capital instrument of the S-UBG group which focuses on subsequent financing rounds (series-B or -C) of successful, innovative young companies with a profitable business model.

The Seed Fonds II Aachen (SFA II) established in 2012 is still in its active investment phase. Typically, the SFA II is a series-A investor and invests up to € 1 mio. per company in follow up investment rounds. Larger investment rounds can be structured in cooperation with co-investors.

Common for all four investment vehicles of the S-UBG Group is the regional approach to only invest in companies within the economic region of Aachen, Krefeld and Moenchengladbach.
