

schilgen 3D design

<i>Name</i>	schilgen3Ddesign
<i>Address</i>	Jakobstraße 90
<i>Postal Code / City</i>	52064 Aachen · Germany
<i>Contact Person</i>	Dipl. Des. Holger Schilgen
<i>Phone</i>	+49 241 4002 948-1
<i>E-Mail</i>	post@schilgen3Ddesign.de
<i>Website</i>	www.schilgen3Ddesign.de
<i>Employees</i>	1-5
<i>Founded (year)</i>	2000

schilgen3Ddesign develops and designs products mainly for the medical and health segment.

We take over the developing and construction in order to find the best solution for our customer and at the end for the end-user.

Our designing is focused on developing a good form. It should fulfil all ergonomic, technical, strategic and visual requirements. To reach this aim, we sketch, design, visualize, construct and create design models or prototypes. So it is normal that we don't stop at the design surfaces, but complete the construction on the hidden technical inside of a e.g. plastic housing.

Our second business operating area is producing films mainly for technical visualizations. When our clients want to show special processes or present a new product.

We think and work in 3D – virtual and real.

*product design – construction – prototyping –
visualization – animation film*
