Founded 2014

Our law firm is focused on small and medium-sized enterprises in the IT and technology sector.

We offer sound and transparent legal advice on all matters of IT, data privacy and media law. Having an IT background ourselves enables us to provide sound and professional advice based on a deep understanding of IT processes and software development.

We advise companies on all corporate matters, in particular during incorporation, later restructuring, on implementing joint ventures and acquiring venture capital, or when negotiating with traditional investors. We will assist in the preparation of all relevant legal documentation and drafting and negotiation of contractual agreements.
