Founded (year) 1993

IEM is a researcher, developer and manufacturer of validated medical devices and services specializing in the field of cardiovascular diseases. The medium-sized family company based in Aachen has existed for over 25 years and is one of the leading international providers in the premium segment. As an international technology expert for hypertension management, IEM offers complete solutions in the areas of screening, diagnostics and follow-up management. In addition to these core products, the focus is on eHealth – efficient therapy and compliance management from vital data recorded at home.

In addition to own product lines, individual order developments complete the IEM portfolio at the customer's request.
