Founded (year) 2020

The core competence of iON WATERS® GmbH is the production of alternative and non-alcoholic disinfectants, which consist of a sustainable combination of water, salt and electricity. The initial scepticism towards the “different” disinfectant was taken away by effectiveness tests. Our product DR.PHAN AiXiON® inactivates over 99% of viruses (such as influenza, SARS-CoV-1, SARS-CoV-2) and kills 99% of bacteria. In addition, iON WATERS® GmbH has been listed according to ECHA Article 95 BPR (EU) 528/2012.

Mrs. Mag. Hong-Anh J. Phan-Nguyen supports companies in establishing hygiene plans. Mr. Dr. rer. nat. Kim-Ho Phan had been active in research at DWI, Leibniz-Institut für Interaktive Materialien e.V., for over 30 years.

After leaving the company, he has been working as an assessor for well-known companies. Synergy effects are created by his broad network of experts and knowledge transfer.
